Dear Alumni

Greetings from Aurora's PG Colleges, Ramanthapur!!!

We all hope that you are doing great in your career and experiencing a colourful life filled with joy and success. 'Aurora' always has been instrumental in nurturing the young graduates joining the institutions with the necessary curricular, co-curricular, extra curricular and life skill that make them globally competitive. The tradition of organizing an Alumni Meet is there, since the inception of the institutions in the year 1995. It is a privilege to have all the brand ambassadors of the institution at one place and share the moments of happiness and accomplishments with the succeeding batches of students. Student life is memorable in everyone's life. It is a life filled with academics, entertainment, fun, enthusiasm and aspirations for the future. The Alumni Meet is rightly named as 'Sammelan' which literally means a 'warm gathering'. This meet surely does provide a venue for a warm gathering of the Alumni who have successfully completed their education at this place and have entered into their careers successfully. The institutions proudly announce that there are around 5000 alumni who are building the brand of 'Aurora' across the globe.

On this occasion, I am glad to share with all of you that the year 2018 showcased the excellence of the institutions by getting Accreditation with A +and A Grades for MCA and MBA Colleges by the National Assessment and Accreditation Council (NAAC). We are also very happy to share with you all that our student satisfaction survey registered a very high level of 93% score and made all of us proud to be your teachers. As a regular feature, this year also the students of the institution grabbed a couple of University Ranks among the top 20 Ranks of Osmania University; both in MBA and MCA disciplines. Our institution has been listed by the 'Knowledge Review Magazine' as one of the Top 10 Management Institutions in the state of Telangana consecutively for two years; 2017 and 2018. The college received 'Best Institution' award for its active student participation in 'Swachh Bharath Program'. The students brought many laurels in the academics, sports, NSS, cultural activities and many more events to name. This emphasizes the commitment of the institution towards imparting quality education to the incumbents. As time is passing on, we have been revising the teaching learning processes, imparting training for placements, encouraging students to pursue higher education and promoting entrepreneurial activities through Memoranda of Understanding with a number of industries and specialized bodies meant for the purpose. The students are also encouraged to pursue internships with reputed organizations and conduct business surveys and field surveys on topics of contemporary social relevance. We are happy to receive immense support from the students, parents, collaborators and undoubtedly from the faculty and staff of the institution throughout this journey towards excellence. We thank each and everyone by names, who have contributed to the brand 'Aurora' and promise that we will continue to strive for excellence in every activity we undertake for the development of the students, community and towards the nation. I warmly welcome the proud Alumni of 'Aurora' to come to your 'Alma-Mater' for rejoicing the moments you spent here, for sharing your sweet memories and stories of success with the current batches of students. Aurora's P. G College, Ramanthapur, is one of the prestigious institutions in Hyderabad, having high value to its brand name. After completion of my post graduation from Aurora's PG College, I am able to carry high weightage to my resume. The faculty here is of highly talented and student friendly. Also, the Institute has well organized library and Computer Lab and parking space. I have seen lot of positive change in me after completing my Post Graduation from this esteemed Institute. It has been almost a decade of association with Aurora and a wide gamut of learning and experiences. Way back in 2007, when I joined Aurora's PG College, Ramanthapur, I had no thought that this Institution would give a huge impetus to my career. Though I am a Faculty now at Aurora, because of the continuous learning process, I still get the same good old feeling of being a student. Director, Dr. M. Madhavi Madam, HOD CH, Satish Kumar Sir and senior faculty like S. Pratibha Madam are all round champions as faculties, guides and mentors. I get to see old passed out students every now and then in the campus coming with their career related issues. Aurora cares for all these and supports them students even after they leaving the campus. I feel proud in introducing myself as a student of Aurora.

Like every child dream of their stars at night seeing the dark sky. I see the lovely stars every morning shining in the class and dream about their future. Victory of each student gives me immense pleasure and satisfaction and that's what encourages me to be the best each day and love my profession more and more. I still remember my first day of college as a student looking for a path and knowledge. That is when I met the real fairy world and wrote my fairy tale for all my life at Aurora. Every year I see many students walking into my temple of learning – "Aurora" with many dreams to fly high in the sky. Wish all those little stars, all the very best and a bright future ahead. I will always be here waiting to see you all flying high in the sky.

And continuing to live my fairy tale...!!!

Quality education is all what every College speaks and promises in the present day, but unfortunately very few Colleges actually deliver them. MCA at Aurora has always been "A crest above the Rest". Especially college Library helped me to gain immense knowledge about everything because they provide diverse books on each shelves with latest national and international journals and many other resources. Knowing the very fact that books are not the only way of learning, the college has taken immense efforts to see to it that each and every student gets the maximum possible exposure in practical field too. Looking from my personal point of view, Aurora has not only kept its promise of quality but it has also proved its uniqueness by providing the best of everything. My special interest in Database Design and Internal communication network in it, this made me curious to understand Artificial Neural Network which you can find in MCA library and with the help & support of Faculty, I could gain more piratical and realistic approach to address the problem solving techniques. Yes BIG DATA IS WATCHING YOU!

Aurora college have taught me a well and sophisticated way of learning my mistakes and correcting them which had a great impact in my life. Time flies like an arrow. My experience at Aurora was just amazing. Here we get ample opportunities to explore and develop. Aurora encourages every student to explore their inner talent by providing an exceptional integrated learning environment. I express my heartfelt thanks to the college who gave me the perfect opportunity to explore myself and raised my level of confidence. The faculty of Aurora are so concerned that they made me do hard work for the way to success. The academic life in this college was flooded with assignments, ITL activities like group discussion, debate, quizzes etc., which are unforgettable events and activities that we had experience. I want to express my sincere thanks to the college and to all the faculty members who gave me the perfect opportunity to explore myself. Thanks to all.

It gives me immense pleasure in sharing the best moments of my college times. Aurora teaches every student how to be confident enough to survive in this global market. It inspires every aspect a student from class room education to several extra-curricular and Co-curricular activities. The faculty of Aurora encourages the students to participate in different management events organized within the college and also motivate us to participate in the events organized by other colleges. I would like to take this opportunity to thank all the faculty and also the management who were associated with me during my journey with Aurora

It's been pleasure to share about Aurora which had changed my life. I learned to work independently and mingle with others. Overall I've had a very positive experience during my time as a student. The faculty are superb and helped truly to understand the material and in giving every chance to succeed. Most of the students are also very friendly and welcoming, though some come from very sheltered homes and have trouble understanding people with a "past" or understanding people who struggle with things like substance abuse. The academics are top notch and very challenging, and will prepare us well for our career. Administration can be a bit close-minded, and tend to stick closely to their policies and rules even if we have legitimate cause to request an exemption -- but individually they are very personable, and overall try to make decisions that will improved our experience as a student.

Aurora has really lived up to its name of transforming lives, and has impacted my life to a great extent. There are lots of opportunities which Aurora has given to explore. It is a great platform to discover oneself. Studying at Aurora was truly rewarding and fun. I have been trained, encouraged to explore outside my comfort zone. I became more confident as a MBA professional. It is been a great learning experience.

My journey in Aurora has been adventurous because of lot of opportunities to explore my passion and sharpen my skills to accomplish my goals. I was mentored by the faculty in using my abilities to empower myself. I was encouraged at every level during the 4 semesters in Aurora. I am so blessed to be studying in Aurora. It always suprised me by the way our Director Dr M Madhavi Madam, our HOD Satish sir, MCA HOD Devender sir and my faculty guidance, support and encourage a student. I always give credit to their deposit in shaping me as a good professional and a better individual.
