If you have any suggestions regarding improving the present curriculum and the skill set required by the industry with which you are associated, kindly mark below.

Below are the few items I would like to suggest to get the beginners knowledge of it

- \* Scripting Languages like nodejs(trending technology), AngularJS, ExtJS etc.
- \* Cloud Computing like AWS
- \* BI tools like PowerBI Desktop/App - Quick to learn and implement. Can be used as Analytical Reports by Higher Management
- \* XML and XSLT is being used in well-versed way
- \* Servlets, JSP and Spring Framework
- \* Automation Testing using Selenium(Have good future in this too)

NOTE: I'm an MCA graduate. I was forced to select the Specialization value while filling up this form since it was marked as a required field. Please ignore it for me
